

AudioSync >>>

INNOVATION
BEYOND
TECHNOLOGY

**IT ALL
STARTED
WITH YOU.**

It all started with people like you, professionals looking for a hearing technology company that knows the industry inside and out. We realized there was something missing in the industry: a company structured to serve the needs of today's audiologists, comprised of leading-edge concepts, talented audiologists, engineers and designers that develop superior solutions for today's practitioners. We've created a company that is customized to fit each individual practitioner, a company that is focused on innovation beyond technology.

THE OUTCOME? AudioSync.

INNOVATION BEYOND TECHNOLOGY.

What does that even mean? It means we don't settle. AudioSync looks beyond the status quo, beyond what has been developed to what can be created. Innovation beyond technology is the driving force behind AudioSync. In today's hearing industry, superior technology is a given. AudioSync is about giving you a whole new way of working with a hearing aid partner. We believe in a forward-thinking approach to our team, our services and the innovation we deliver.

**ADMITTEDLY,
WE'RE NOT
YOUR
TYPICAL
HEARING
COMPANY.**

AUDIOSYNC HAS BEEN DEVELOPED FOR AUDIOLOGISTS, BY AUDIOLOGISTS.

We're not concerned about being the biggest hearing aid company, but we are certainly concerned about being the best. There are plenty of companies that have large infrastructure and corporate mentalities. We know you and have walked in your shoes. AudioSync is committed to working directly with our audiologists to deliver innovative solutions that you won't find anywhere else.

EXPERIENCE AND CREDIBILITY

U.S. FOCUSED, AUDIOLOGY DRIVEN.

The leadership behind AudioSync is made up of individuals from the audiology community who are committed to the future of the industry. We are solely focused on the needs of our U.S. partners and how we can drive their success. Our company wasn't developed abroad and then retrofitted for the American audiology community. When you partner with AudioSync, you will experience American ingenuity at its best.

**“WE ARE
SMALL ENOUGH
TO LISTEN, BUT
LARGE ENOUGH
TO LEAD.”**

DAVE FABRY

MANAGING DIRECTOR – AUDIOSYNC

**CUSTOMIZED
TRAINING
EXPERIENCE.**

AUDIOSYNC IS STRUCTURED TO SERVE YOUR NEEDS AND ASSIST IN DEVELOPING YOUR PRACTICE. We concentrate on customized training and educational opportunities that will benefit you. We have the freedom and ability to do what is right for each and every customer so you succeed and build your business as you see fit. These ideas will ultimately live on to become solutions for a better patient journey.

**GROW YOUR
PRACTICE**

WITH

AUDMED™>>>

WE KEEP YOU AHEAD OF THE CURVE.

AuDMED is a specialized business development group. Our business model isn't cookie cutter – the actual steps taken for your practice are customized to fit you specifically. With AuDMED, you are not alone. Together, we will work to determine what is necessary to help your practice evolve into a more competitive business. Our team will look at all aspects of your practice, from building it out to building it up.

**YOU ASKED.
WE LISTENED.**

**REVEALING THINGS NEVER BEFORE SEEN
OR HEARD.** New technologies and services are just on the forefront that will allow you to develop your practice and serve your patients in ways you've never imagined. AudioSync has the systems and the training that were revolutionized by the best in the business. With AudioSync as your partner, your practice will always be at the cutting edge.

**TOMORROW'S SOLUTIONS FOR TODAY'S
AUDIOLOGISTS.** No other company can give you
this level of know-how. We know you, because
we are you. We're not here to hold your hand
and tell you what is best; you know that – you
understand your patients. **WE'RE HERE TO
BRING YOU THE TECHNOLOGY YOU
DEMAND WITH THE INNOVATION YOU
NEED FOR THE RESULTS YOU DESERVE.**
